"You miss 100% of the shots you don't take."

-- Wayne Gretzky

If I Can Do It; You Can!

Is This You?

Once upon a time...

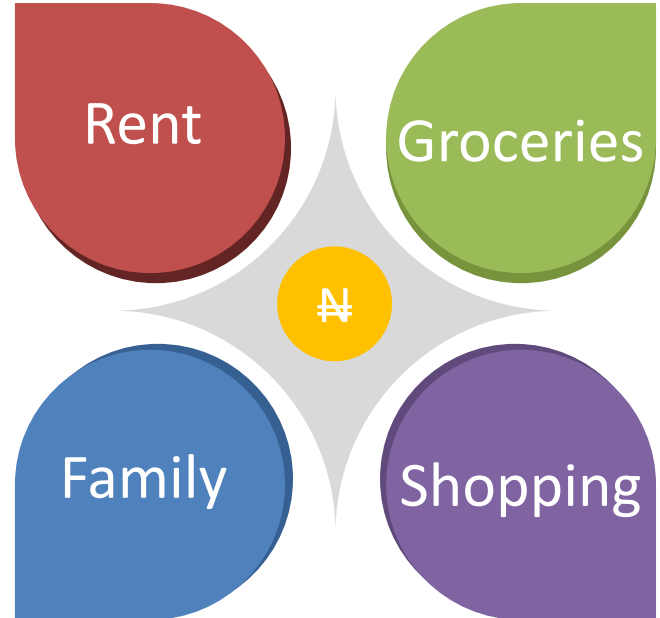

everything revolved
around my job:

- ☐ only income source
- ☐ can only spare time after work for family
- ☐ no/little time for friends
- ☐ vaca what?

Income = 1; Expenses = Many

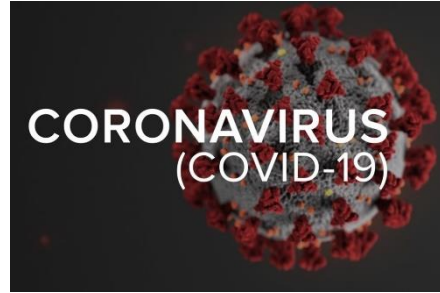

Then Something Bad Happened

"Would you please elaborate on 'then something bad happened'?"

*In my case, in 2011
another company
took all our clients.
Funny?
C'est la vie. I was
furloughed.*

Life Never Remained Same

Losing a job has the same effect as your boss sneaking up behind you and shooting you in the head.

I heard salary cut has the same effect too.

You never stop thinking, how about the years things were great and management was swimming in unexpected bumper profits.

I noticed that they're all facing forward except Lincoln.

I guess once somebody sneaks up behind you and shoots you in the head you never really get over it.

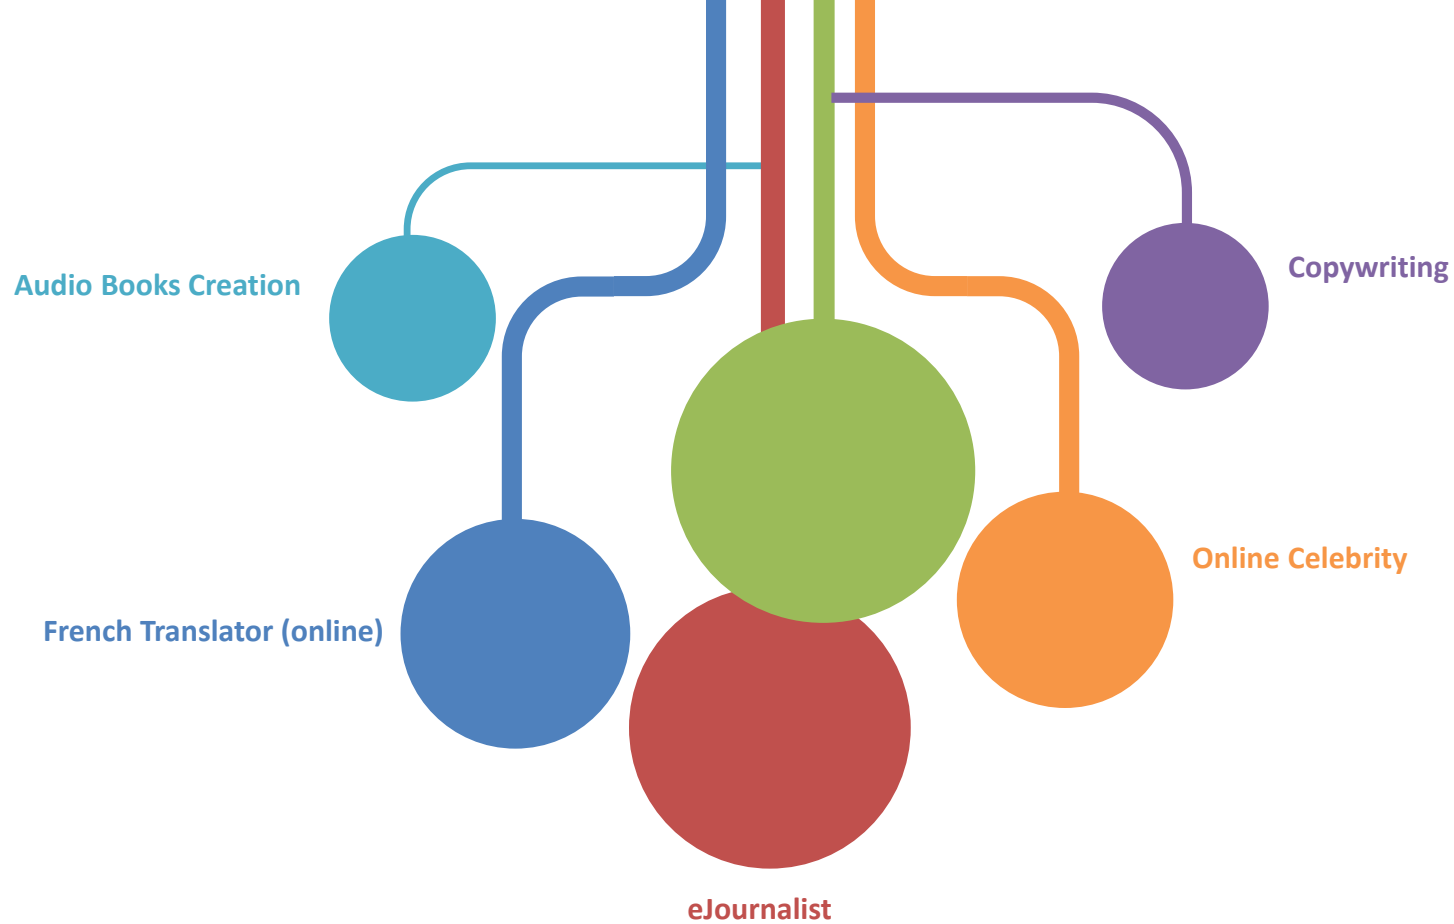

Project: Multiple Income Streams

I got another job the next month, but my head had shifted permanently.

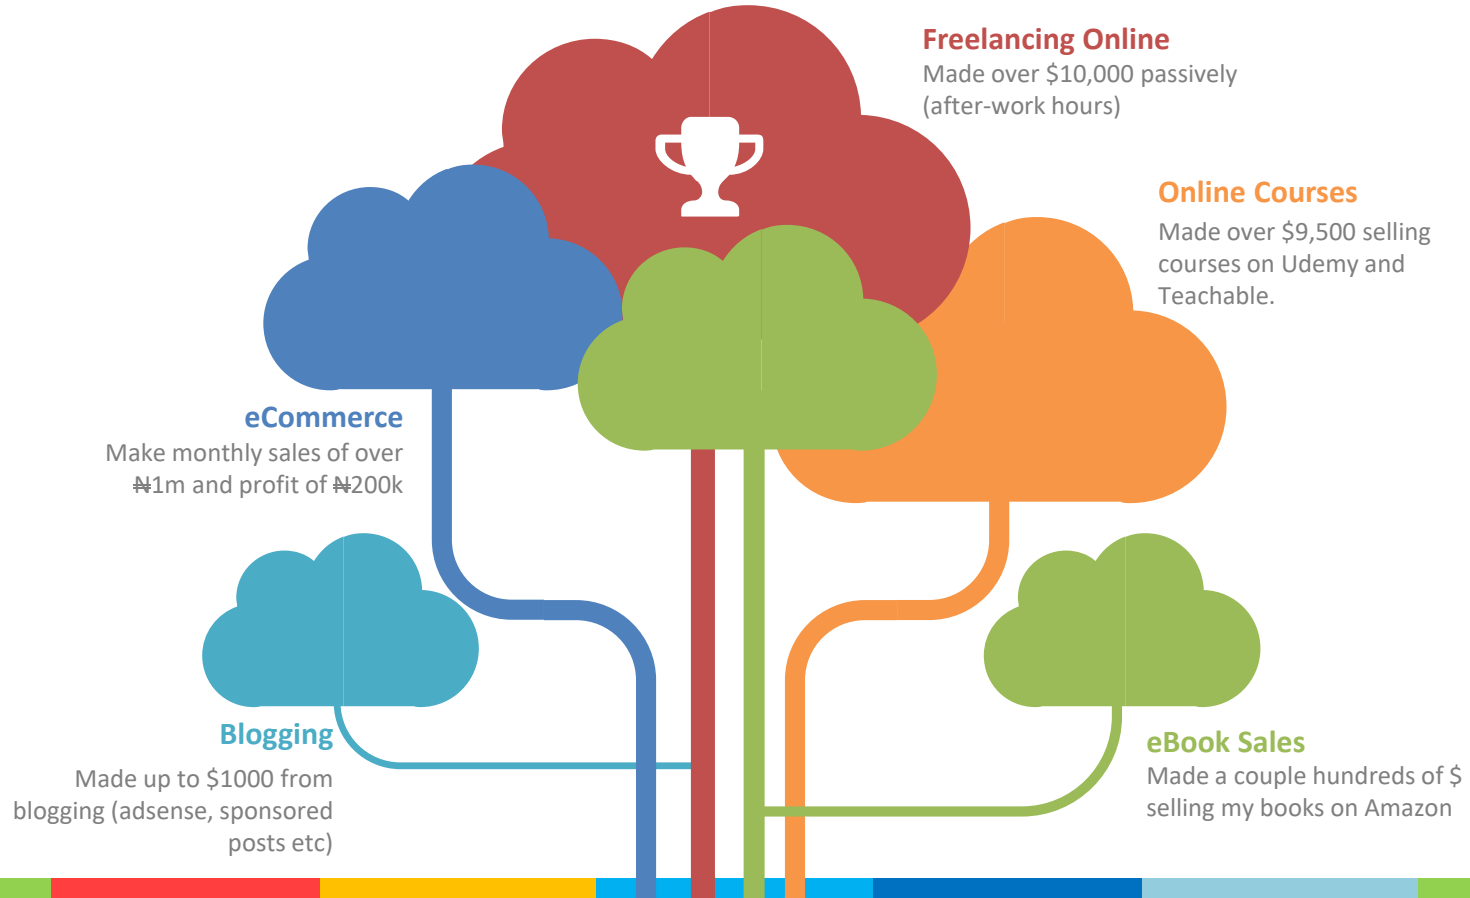

I kept working at having multiple income streams.

At First, I Failed

Then, I Succeeded

-- Zig Ziglar

I started my data analysis career with Comviva Airtel Africa creating daily, weekly, monthly and adhoc reports for the entire operations in the CRBT product unit across Africa. The company operated across ten countries in Africa then and I was creating between 12 and 30 reports daily. The company had just moved to Africa after Airtel acquired Zain Africa operations, so everything started from scratch – I and my colleagues had to build everything from scratch.
